- ✓ *Elective Course 300 + level (4 quarter credits)

Biology Major Area Courses (*26 credit hours*)

NOTE:

Per the Biology Program Director, there will be a total of 26 credit hours from the Biology program's list of Core and Major courses as outlined on the Program Planning Sheet for that major which will be accepted.

However, the final decision of which of the Core and Major courses that will be transferred into the Biology program must be evaluated on a case-by-case basis to determine which of the Core and Major courses will be transferred to East-West University's Biology program.

To confirm which of the Biology Core and Major courses will be transferred into East-West University's Biology program, you must submit the transcripts from your Associate Degree to the Biology Program Director for the Biology Major credit evaluation and acceptance.

REMAINING COURSES

Remaining courses required for an East-West University Bachelor's Degree
