GRADUATION

Congratulations

LOOKING AHEAD: INNOVATION, OPPORTUNITY, AND TRAVEL

Future career plans: Continue working with my current company and transition into their innovation department, or join MSC in either their Communications or Engineering department. Lastly, get back into travelling and seeing the world (if my paycheck allows... :))

MY FAVORITE CAMPUS MEMORY

Some of my favorite campus memories include building circuits in the lab, volunteering at our departmental presentations, all the snacks we shared, and going through each class with classmates. I love like family. I'll never forget overcoming each challenge I faced with the best group of classmates I could ever ask for,

Dezhemie Leonard
