**GRADUATION**

*Congratulations*

## MY FAVORITE CAMPUS MEMORY

During my time at EWU, I sustained the honor roll and was presented with the Dean's list a few times. This was special, as it feels good to be celebrated. My favorite campus memory was the Capstone showcase. It was my first time being able to present something I built to the public, and it makes me proud.

## PURSuing GROWTH AT WORK AND BEYOND

After graduation, I plan to become a power engineer. With my 10+ years of experience as an electrician, I'd be a perfect fit for saving the power grid.

**Thank you, EWU**, and special thanks to **Dr. Ash** for pushing us further and **believing in us** even when we had doubts.

**Xavier Thomas**
